

BASEL WAEEL

Full-Stack Developer

Cairo, Egypt | +201559129550 | bslwael@gmail.com

Portfolio | LinkedIn

A Full-Stack engineer specializing in Laravel APIs, admin dashboards, and React UIs, combining project leadership, stakeholder communication, and hands-on Docker, Nginx, and CI/CD experience with a strong focus on performance, security, and clean architecture.

Work Experience

Backend / Full-Stack Engineer / Project Supervisor

Aug 2023 - Present

Self-Employed | Cairo, Egypt

- Delivered production web apps (QGA, news, social, marketplace), HTTPS domains, and APIs for 2 Android apps using Laravel and MySQL
- Owned API architecture and RBAC implemented validation and wrote migrations and seeders
- Containerized services and deployed behind Nginx, added uptime checks and structured logs
- Improved responsiveness by moving email/notifications/media processing to Redis queues and scheduled jobs

Software Engineer

Jan 2022 - Jul 2022

Smartly | Cairo, Egypt

- Built REST endpoints and background jobs in Laravel for auth, RBAC, and content flows
- Optimized SQL with indexes and query tuning; wrote concise Linux/Nginx deploy notes
- Built Laravel REST endpoints and background jobs for ERP modules including auth, RBAC, invoicing, inventory, and content flows.

Software Engineer

Jul 2020 - Nov 2021

SBT | Cairo, Egypt

- Delivered ERP modules: Inventory, Sales, Purchases, POS/CRM, Invoicing, Reports
- Designed SQL Server schemas and stored procedures and generated RDLC/Crystal reports
- Deployed to IIS and supported pre-release QA checks
